

Where we work and how we talk

The channels, tools, and norms for the 4orm team.

Where we work, how we talk, and where everything lives. All work product stays on Company platforms, nothing important lives only on a personal device.

THE TOOLS

ClickUp. The command center: tasks, the pipeline, workstreams, and the weekly wins. Your home base for what is moving.

Google Drive. Work product and shared documents, structured by workstream. Company-controlled.

Data room. data.4ormfinance.com. The diligence room: cap table, financials, plan, and the live Path to Revenue.

This advisor room. Your agreements, the company docs, governance, and reference library, always here.

HOW WE TALK

Email. office@4ormfinance.com for working matters, compliance@4ormfinance.com for anything formal or confidential.

Calendar. A monthly advisory session with the CEO, plus key dates: advisory council cadence, the fundraising window, and your six-month review.

Cadence and response. Reasonable availability by phone and message between sessions. We move fast and we protect each other's time.

Who to call. Chad for direction and the mission, Bruce for capital, Kevin for brand and go-to-market, the CTO once in seat for the build.

All Company data stays on these platforms and is returned or surrendered when an engagement ends.
