

What we stand for

The 40rm mission, North Star, and values at a glance.

Mission. To build regulated infrastructure that lets Canadians and Canadian institutions issue, hold, move, settle, and verify assets with privacy, security, and fair access, under Canadian law, and with fewer unnecessary intermediaries between a person and what they own.

North Star. To help the Canadian financial system become independent and sovereign, and to keep the rails of the country's financial future Canadian-owned, regulated, and built to last. We build for a hundred years, not the next quarter.
