

What you see, what stays private

The access and confidentiality boundary for advisors.

As an executive advisor you get deep access. This page is the boundary: what you can see, what stays private, and what we count on from you. It sits under the Mutual NDA you signed.

WHAT YOU CAN ACCESS

- The full data room: cap table structure, financials, the business plan, and the model.
- The live Path to Revenue and roadmap.
- Company documents, governance, and the reference library in this room.

WHAT STAYS PRIVATE

- Every other advisor's personal compensation and signed agreements.
- Your own compensation schedule, private to you, in your folder only.
- Anything a founder or counsel flags as restricted.

WHAT WE COUNT ON FROM YOU

- Hold everything in confidence, indefinitely, under the Mutual NDA.
- No forwarding, no screenshots, no copying Company data to personal systems beyond the minimum needed to do the work.
- Return or surrender all Company data when your engagement ends.
- Report any suspected breach or loss immediately to compliance@4ormfinance.com.
- The Mission Anchor's data bars apply to you: privacy is the default, and customer data is never monetized or shared outside lawful process.
