

Compensation and Terms Schedule

Schedule A to the Advisory Engagement Letter · Dean McCall

This Schedule A attaches to and forms part of the Advisory Engagement Letter dated July 7, 2026 (the “Letter”) between 4orm Finance (the “Company”) and Dean McCall. It restates and details the compensation set out in Section 5 of the Letter. It is personal to the advisor and is not shared with other advisors. Defined terms have the meanings given in the Letter. Where any inconsistency arises, the Letter, the Company's constating documents, and the Legacy Token Instrument govern.

A.1 At a glance

Advisory equity	0.25% (50,000 Class A common shares)
Secured on signing	25% (12,500 shares); balance 37,500 over the vesting term
Vesting (baseline)	24-month quarterly vest, no cliff
Acceleration	Single-trigger, full acceleration on change of control
Vesting floor	Full baseline 0.25% retained if ended without cause
Monthly advisory retainer	\$4,000 CAD; accrues from the Letter date, cash begins on the first pre-seed tranche
Performance step-up	To 1.00% (additional 0.75% / 150,000 shares) at the six-month review, on placing the CTO and helping secure \$500K to \$1M; step-up vests 24-month monthly, no cliff
CTO placement success fee	Separate written instrument, negotiated in good faith; additional to the step-up
Legacy tokens	10 tokens (of a 1,000-token pool); lapses with no substitute if the Instrument does not materialize
Expenses	Pre-approved reasonable expenses reimbursed

A.2 Advisory equity

The Company grants the advisor advisory equity of 0.25% of the Company, being 50,000 Class A common shares (1:1 voting), on the current 20,000,000-share founders basis, under the Company's constating documents, which govern. The grant is made effective on the start date set out in the Letter.

A.3 Vesting, floor, and acceleration

Schedule. Of the total grant, 25% (12,500 shares) is secured on signing. The balance, 37,500 shares, vests over 24 months on a quarterly basis, with no cliff, in equal quarterly instalments.

Vesting floor. If the Company ends the engagement without cause, the advisor's full baseline equity of 0.25% (50,000 shares) and the legacy tokens are treated as fully vested, so the baseline grant is kept in full regardless of timing. Any performance step-up under Section A.5 not yet earned by that date does not apply.

Acceleration. On a change of control of the Company, all unvested equity and legacy tokens vest in full (single-trigger acceleration).

Forfeiture. Except as set out above, unvested equity and tokens are forfeited on termination. Vested equity is subject to the right of first refusal in Section 5.4 of the Letter.

A.4 Monthly advisory retainer

Amount. The Company will pay the advisor a monthly advisory retainer of \$4,000 CAD, structured to align cash flow with the Company's pre-seed funding trajectory.

Accrual and invoicing. The retainer accrues from the date of the Letter. The advisor may invoice the Company monthly from that date. Each invoice is an accrued and payable obligation of the Company from the date it is issued, whether or not cash payment has yet been made.

Cash payment begins on the first pre-seed tranche. Monthly cash payment of \$4,000 begins on the Company's receipt of the first pre-seed funding tranche. From that point, the retainer is paid monthly on net-30 terms from the date of each invoice.

Catch-up on pre-seed close. Any retainer accrued between the date of the Letter and the first pre-seed tranche remains an accrued and payable obligation and is paid in full on the final close of the pre-seed round.

Honoring time contributed. Time the advisor contributes in good faith between the date of the Letter and the first pre-seed tranche is captured as accrued retainer under this Section, invoiceable monthly, and paid in full on the final close of the pre-seed round.

Duration. The retainer continues through the earlier of (a) the six-month term end under Section 4.0 of the Letter, (b) transition to a defined role under Section 4.2, or (c) termination under Section 4.3. If the engagement continues by mutual agreement beyond the initial six-month term, the retainer continues on the same terms until a defined role is agreed or the engagement ends.

Not tied to capital raised. This retainer is a fixed monthly advisory fee for the services in Section 1 of the Letter. It is not tied to capital raised, deals closed, or hires made, and it is not a placement or success fee. It is compensation for time, judgment, and availability.

A.5 Performance step-up to 1.00%

The advisor's baseline equity is 0.25% (50,000 shares). At the six-month review (Letter Section 4), the advisor's total equity steps up to 1.00% of the Company, being 200,000 Class A common shares (an additional 0.75%, or 150,000 shares), if, by that review, the advisor has both (a) sourced and placed the Company's Chief Technology Officer, and (b) helped the Company secure between \$500,000 and \$1,000,000 in pre-seed capital, being introductions that lead to closed funding, with the Company negotiating and closing.

Grant and vesting. If both conditions are met, the additional 0.75% is granted at the review and vests over 24 months on a monthly basis, with no cliff, from the review date. If the conditions are not met, the equity remains at 0.25%. If the advisor has met one condition but not both, the parties will discuss an appropriate adjustment in good faith.

Cap table. The step-up is contingent and is reflected on the cap table only when earned.

A.6 CTO placement success fee

A separate success fee attaches to the advisor's successful sourcing and placement of the Company's Chief Technology Officer. Its structure, amount, and payment terms are negotiated in good faith between the advisor and the CEO, and documented in a separate written instrument entered before or upon the placement of the CTO.

In addition to the step-up. The success fee is in addition to, and not in substitution for, the performance step-up in Section A.5. Both may be triggered independently by the same CTO placement.

If no instrument exists. If no separate instrument has been executed by the time of the CTO placement, the parties will discuss in good faith and set the CTO placement success fee at that time, with the intent of honoring the advisor's role in bringing the right person to the Company.

A.7 Legacy tokens

The advisor is allocated ten (10) legacy tokens from the 1,000-token legacy pool, on the terms of the Legacy Token Instrument, which governs. Any distribution on the legacy tokens is calculated on a defined, auditable basis set out in that instrument.

No backstop. If the Legacy Token Instrument does not materialize, the legacy token allocation lapses; no substitute equity or cash compensation is owed by the Company.

A.8 Expenses

The Company reimburses reasonable, documented expenses incurred in the engagement where approved in advance by the Company. Expenses are submitted with receipts and reimbursed on the Company's normal cycle.

A.9 Recognition, not capital placement fees

Consistent with the Letter, the advisor is not paid a fixed capital success fee or a percentage of capital raised. Where an introduction the advisor makes leads to closed pre-seed or seed capital, it is recognized and compensated under Section 6.3 of the Letter, on terms set in a separate written instrument at the time and worded to comply with applicable securities law. The CTO placement success fee in Section A.6 is distinct and specific to the Chief Technology Officer hire.

A.10 General

This Schedule details Section 5 of the Letter and is read with it and the documents it references. The Letter, the Company's constating documents, and the Legacy Token Instrument govern in the event of any inconsistency with the summaries here. This Schedule may be amended only in writing signed by both parties, and may be signed electronically and in counterparts.

A.11 Acceptance

FOR THE COMPANY	ADVISOR
Signature: <u>Chad Johnston</u> Chad Johnston, 4orm Finance Date: July 7, 2026	Signature: <u>Dean McCall</u> Dean McCall Date: July 7, 2026

Personal and confidential. This Schedule records the compensation terms of the advisory engagement and is read together with the Advisory Engagement Letter, which governs in the event of any inconsistency.
